

TRAINED TO GO TRANSPORT LLC

Capability Statement

HEAVY-DUTY LOGISTICS LAST MILE & J.I.T. FREIGHT

Trained To Go Transport LLC is a premier logistics provider with 5+ years experience specializing in high-capacity freight and precision transport solutions. Utilizing a versatile fleet including 26-foot box trucks and 40-foot flatbed gooseneck trailers, we deliver seamless supply chain support for the automotive, construction, and steel manufacturing industries. **We have successfully partnered with industry leaders such as United Rentals, Mobile Mini, Item Southeast, Engineered Products and MMR Constructors Inc, demonstrating our ability to meet rigorous operational standards.** We are committed to maximizing client ROI through punctuality, safety, and data-driven fleet management.

CORE COMPETENCIES

SPECIALIZED HEAVY HAULING:

Expertise in transporting oversized industrial loads, structural steel, and construction materials using 40-foot gooseneck trailers with self-loading and self-unloading capabilities.

FINAL-MILE & DISTRIBUTION

Rapid-response delivery for automotive and manufacturing sectors utilizing 26-foot box trucks equipped with heavy-duty lift gates.

HIGH CAPACITY HOTSHOT SERVICES

Optimized 1-ton diesel platforms (Ram 3500) dedicated to time-sensitive, local freight, regional freight and expedited project cargo.

PRECISION FLEET MANAGEMENT

Data-backed operations focused on cost-per-mile efficiency, ensuring competitive pricing and 99% on-time delivery performance.

KEY DIFFERENTIATORS

PRECISION FLEET STANDARDS

We operate a late-model fleet maintained to rigorous mechanical standards ensuring maximum uptime and zero-failure transport for critical loads.

SPECIALIZED LOAD VERSATILITY

Our unique equipment mix allows us to handle complex, multi-modal freight that standard carriers cannot accommodate.

ANALYTICAL LOGISTICS REPORTING

We leverage advanced KPI tracking to provide clients with transparent reporting on transit efficiency, helping partners optimize their internal supply chain and reduce total costs.

STRATEGIC SOUTHEAST HUB POSITIONING

Headquartered in the Greenville, SC/Upstate, SC corridor, we offer immediate access to major manufacturing hubs and port-proximate routes, reducing lead times for regional deliveries and construction projects.
